## PAYMENTS FOR MEDICAL AND REMEDIAL CARE AND SERVICES

METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES – OTHER TYPES OF CARE OR SERVICE LISTED IN SECTION 1905 (a) OF THE ACT THAT ARE INCLUDED IN THE PROGRAM UNDER THE PLAN ARE DESCRIBED AS FOLLOWS:

Outpatient hospital services other than clinical diagnostic laboratory, outpatient surgeries, rehabilitation services and outpatient hospital facility fees for office/outpatient visits are paid as follows:

In-state private hospital outpatient services are reimbursed on a hospital specific cost to charge ratio calculation based on the latest filed cost reports. Updated cost to charge ratios will be calculated as filed cost reports are received. Cost to charge ratios for the hospitals on which a filed cost report was received will be adjusted at the beginning of the next quarter. Final reimbursement is adjusted to 83% of allowable cost through the cost report settlement process. The allowable costs are determined from the Medicare/Medicaid cost report for each hospital. The costs and charges on these cost reports are reported in accordance with the instructions in the HIM-15 (Medicare Reimbursement Manual).

**In-state public hospital outpatient services** are reimbursed at an interim rate of 60% of billed charges. Final reimbursement is adjusted to 83% of allowable cost through the cost report settlement process.

**Out-of-state hospital outpatient services** are reimbursed at 50% of billed charges.

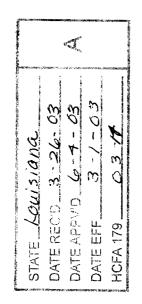

## **Enhancement Pool For Public Hospitals**

## a. Enhancement Pool Creation

An enhancement pool is created to increase reimbursement to public hospitals in proportion to their share of Medicaid billed charges in excess of Medicaid reimbursement as documented in the most recently filed cost report. The pool is created subject to the payment limits of 42 CFR §447.321 (the aggregate Medicaid payments may not exceed a reasonable estimate of the amount that would be paid for the services furnished by these hospitals under Medicare payment principles).

## b. Calculation of Hospital Payment Differential

The hospital payment differential for any year shall be the difference between the upper payment limit of aggregate payments to non-state public hospitals as defined in 42 CFR §447.321 and the aggregate Medicaid per diem reinbursement paid to these hospitals for the year. This amount shall be calculated based on the hospital's latest filed cost report and shall be trended forward to mid-point of the current State fiscal year based on the Center for
